

Fuller Youth Institute Jumpstart Coaching

Maximize your efforts. Overcome your challenges.

Jumpstart your efforts to grow young with three months of support from an experienced Fuller Youth Institute coach.

Your coach is dedicated to understanding your church's unique culture and will come alongside you through three personalized phone or video calls.

Rather than guess about the best way forward or shoulder the stress of change on your own, allow one of our expert coaches to help you keep the big picture in mind and focus your efforts strategically. Your coach can provide support in the following areas, as well as others you may identify:

- Getting senior leadership and/or your overall congregation on board
- Promoting and launching the assessment, including creating a plan to share results with your team and/or congregation
- Deeper interpretation of your assessment results
- Conducting interviews or focus groups to maximize your assessment insights
- Mastering the core principles of Growing Young and taking practical next steps on the core commitments
- Building a Growing Young team for long-term impact
- Developing a Growing Young vision
- Creating a plan for change, including overcoming barriers to change and conquering conflict

How it works

You can begin the Fuller Youth Institute Jumpstart Coaching at any time, including before you start your assessment, immediately after you have received your final report, or after you've been trying to implement the results of the report for a while. While the focus of the coaching can be customized to your needs, the typical structure includes:

Month 1

- Prior to the first call your coach will review your specific questions and desired areas of support, as well as your Growing Young Assessment report (if available)
- One hour coaching call
- Occasional document review and email support

Month 2

- One hour coaching call
- One hour coaching call to assess your progress, identify challenges, and help you create a plan of next steps

Month 3

- One hour coaching call
- Occasional document review and email support
- Following the final coaching call, your coach will provide a written recommendation of next steps and recommended supporting resources

Note: If you have purchased the church version of the assessment, that purchase also includes one coaching call. This will count as a fourth coaching call in addition to the three above.
